every respect. An slarm of fire scentred shortly after so c'elock, by a light piece of gause taking fire at one of the fles, but it was extinguished in an instant, and the danger passed almost as soon as known. The terror of the moment caused a rush for the doors, and they opening towards the interior were closed tight by the pressure of the mass, and had the building been actually enveloped in flames, the loss of life in consequence of this circumstance, would have been awful. It is understood that the hanging of the doors is to be altered at once, and very property. A man living in Spring Garden, it is said had his leg broken in the struggle to escape.

FURTHER PARTICULARS OF THE VIOLENT GALE .-FURTHER PARTICULARS OF THE VIOLENT GALE.—
A Strong breeze was experienced at Newbern,
S. C., on the 7th inst., which continued all night and the
nost of the next day; the wind blowing first from northst, but vered to northwest. Our fears were much exited for vessels on our unfortunate coast; and our latest
telligence confirms our worst fears. By the kind atention of our friend, Capt. John S. Hunter, at Portsouth, we are furnished with the following distressing
articulars. Of the twenty vessels lying at or near Octooke, eighteen were driven ashore, and one driven out
trea.

sea.
The following were driven ashore: —Brig Washington, outlord, loaded with lumber; schooner C. Slover, navalores, and Frances Fullord, naval stores, all of this place,

Montioral loaded with lumber, schooner C Slover, naval stores, and Frances Fullord, naval stores, all of this place, are on the beach.

The following are also ashore, but we are not advised where they belong: Schooners Patrick Henry, Smith, lumber; Sophia, Toller, iron, &c.; E. Townsend, Smith, salt; Conquest, Bensley, corn; Deflance, Kline, shingles; Paragon, Wayhah, wheat, and Lucius, Styron, corn. Schooner Emeliae was driven to sea with three men on board. Schooners David Farrow, E. Farrow, Paradox, Williams, inclusiry, Manumit, Nancy, and G. C. Merchant, lighters are all asshore.

Several lives are said to have been lost during the gale, and fears are expressed that few, if any, of the vessels can be got off. A passenger who came up yesterday in the Ann Hyman states that, so far as he could learn, the schooner isabella was the only vessel which outrode the gale. We are glad to learn that most of the vessels from this port which went over the bar on Friday and Saturday before the gale, had arrived safely in New York.

In addition to these dreadfol particulars, we learn that the gale was so violent at Cape Hatterns, that not more than six houses were left standing — Newbernian.

BRZAIL TRADE.— Four vessels from Rio de Janciro, reached here yesterday, with cargoes of coffee, all of which, together with vessels for other ports, sailed from Rio under convoy of the U. S. frigate Constitution. This proceeding was daemed accessary in consequence of the war with Mexico, and the belief, prevalent at Rio, that Mexican privateers were cruising against American commerce. The trade with the United States had suffered much hijary in consequence of the distrust arising from the existence of the war.—Balt. Amer.

New York, Tuesday, Sept. 22.

Corrow.—The cotton market continues in an excited state, and the sales to-day are 2000 bales, one-half for export. Yesterday the transactions were nearly as large. Prices are as full that we feel ourselves called upon to change our quotations, as follows:

The Natchitoches Chronicle of the 5th inst. says the cotton crop of that parish has been almost wholly destroyed.

The Caddo (Lou) Gazette of the 28th ult says the destruction had not then been general in that parish, but in some cases entire destruction of the cotton plant had taken place.

JDR. SWAYNE'S COMFOUND SYRUP OF

WILD CHERRY.

OF all the remedies of the day, and they are a great variety, which profess to be of great value to the human family, we hesitate unto to pronounce DR. SWAYNE'S COM-POUND SYRUP OF WILD CHERRY as one of the greatest discoveries of modern science. Of all the many compounds put forth for the care of discases which affect human unture, not one remedy call do be maned which has in so short a space of time acquired such unbounded confidence with the public, and has performed such miraculous cures; and has merited and received so much culogium from the faculty and others, as this justly sell-hated remedy.

BE CAREFUL OF YOUR COLD.

Many people are very apt to consider a cold but a triffing matter, and think that "it will go away of itself in a few days," and they give themselvas no trouble about it. But to such we would say, "be careful of your colds," do not tamper with your constitutions. If you desire to live to a good "old age," use such remedies as will effect an easy and permanent cure. DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY has chired more colds than any other medicine offered for alse in this country. The certificates of cures effected by this invaluable medicine, which the propietor is daily receiving, gre of the most gratifying character, and tend to show its saminive properties and the high rank it holds in public estimation.

The Press, the Medical Faculty, and thousands who have maded DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY, all concur in pronouncing it one of the best remedies ever invented. For the cure of all PULSIONARY AFFECTIONS.

CAUTION—Dr. Swayse's Preparation of Wild Cherry was the first that was everal others, such as Balsams, Candes, and even syrups, trying to build on that already examble in this of the most and the name of Dr. Swayse.

ROBERT S. STENTON, 7c MAIDEN LANE. (Up. Stairs) SOLE AGENT FOR THE UNITED STATES.—In no country in the world does the manufacturer so surely reap the beausit arising from deserved superiority as in the United States; and, for this reason, an American looks for the manufacturer's name impressed upon any article before the purchases; and if he finds the quality good, he remembers and recommends what he has tried and proved. Still, there is no rule without exception. All who purchase Nee'dles by wholesale are well sware that they are not usualy labelled with the real manufacturer's name, but with the name of the importer in New York, Philadelphia, &c., who thus deprives a deserving man of all the credit justly due to him; and as the importer in New York, Philadelphia, &c., who thus deprives a deserving man of all the credit justly due to him; and as the importer can attach his name to the goods of various makers, the buyer has so certainty of obtaining the same article in quality which he had previously purchased, and again requires.
